

Armistice Day

A number of the members of the Canadian Legion gathered at the Butte on Monday to observe the Armistice Day ceremony in honor of their fallen comrades.

Mr. J. E. Huget on behalf of the I.O.O.F. and Mr. W. A. Austin, president of the local branch of the Canadian Legion, placed wreaths on the memorial, and Dr. H. C. Liesemer sounded reveille and last post.

Splendid Lecture on Migratory Birds

Under the auspices of the Albright Brotherhood, Rev. C. E. Rogers of Carstairs gave a very interesting lecture on Migratory Birds of Canada.

The colored slides illustrating the lecture were most interesting and showed a number of pictures of the "Jack Miner sanctuary". Mr. Rogers was fully conversant with his subject and having visited the sanctuary was able to give interesting sidelights on Mr. Miner and his work in conserving the wild birds of Canada.

Curling Commences

The membership committee of the Curling Club have been busy this week lining-up the curlers for this season. A meeting was held last evening to choose rinks and skips.

It is expected that there will be 12 or 14 rinks when the season gets under way.

The ice is building up in good shape and it is expected that the first games will be played this evening.

Get Quota of Deer

The "Big Four" hunters, Jack Topley, Bert Fisher, Frank Heseltun and Alec Moore, arrived home on Friday last, after about three weeks in the woods. They did not have any luck with mountain sheep, those animals apparently having left the country. Although the heavy snow hampered the hunting considerably they were successful in bagging 1 moose and 4 deer. They report that there was about 2 feet of snow in the woods and the weather held them to their camp for several days.

Jenkins' Store Burglarized.

Thieves broke into the Jenkins' Groceries store sometime during last night and stole a quantity of cigarettes, candy and other goods. Mr. Spence states that the value of the goods stolen would amount to \$50.00 or \$60.00.

The robbery was not discovered until eight o'clock this (Thursday) morning, when the clerks arrived to open the store.

The padlock on the outside of the front door was broken off, and the glass in the door broken to release the Yale lock.

It was also found that the gas pump at Sinclair's Blacksmith Shop had been broken into and from five to ten gallons of gas stolen.

Constable Kercher is of the opinion that the store was broken into early this morning, as he tried the doors about 5 a.m.

Should Test Seed Oats Now

Owing to the frost damage done this fall there is every likelihood that there will be a shortage of seed for planting next spring.

This is especially true with regard to oats, as we are informed on good authority that there are very few oats in this district that will have a good germination test.

Mr. Jack Fleury of the Midland Pacific Elevator informs us that he has sent several samples to Calgary for testing and the best report he received was 52% germination in 12 days. The tests on the other samples were considerably less. Each sample that was sent in had the appearance of being very good oats and weighed up to the standard.

In their own interest farmers should make or have made germination tests of all their seed grain so they can make arrangements for their requirements at an early date.

It is thought that there will be sufficient seed wheat and barley in the district for the spring requirements but it is almost certain that seed oats will have to be shipped in.

Olds Line Up Hockey Team

The Olds Gazette gives the line-up of the Olds-Elk team for the coming season as follows:

Goal, Jackie Roberts; defence, Bub Polries, Bob Gooder; first forward string, Spotswood, left wing; Hube Gooder, centre; Jimmy Hutchison, right wing; second forward string, Les Christensen, left wing; Alex Black, centre; and Jack Ainsworth, right wing; with subs; Jake Bulmer and Bernard Hayes.

Four newcomers are on the line-up: Bub Polries, defence, comes from Fairview, Alberta; Les Christensen, left wing, from Strathmore; Jimmy Hutchison, right wing, from Claresholm, and Jack Ainsworth, right wing, who played last season with Edmonton E.A.C.

Ralph Maybank, who played goal for the University last year, will also be available.

"Gobby" Good, who was expected to again be on this year's line-up, has decided to remain at Trail, B.C.

Mountain View Council Meeting

The regular meeting of the Mountain View Council was held Saturday with Reeve Flinn in the chair and all councillors present.

A communication was read from the provincial government regarding unemployed relief. A motion was passed adopting the rules and regulations of the department regarding relief, and electing to administer relief the same as last year, 58.13 per cent of the cost being paid from Provincial and Dominion funds. Payment will be made by relief orders.

Six applications for relief were dealt with.

It was reported that certificates had been granted under the Farmers Credit Arrangement Act in three new cases.

A letter was read regarding the census for seed and feed requirements in the municipality, and the matter was left over to the next meeting.

Councillors Rupp and Trimble were appointed delegates to the municipal convention to be held at Edmonton on November 20, 21 and 22.

Settlement was made for a diversion at SE of 21-31-28-4. The sum of \$15.00 was allowed for a half-acre of land.

Ten applications for tax consolidation were approved.

A copy of the provincial government's scheme for placing the single unemployed on the farms, was read. The government agrees to pay the men so placed: \$5.00 and a supply of clothing the 1st month; \$7.00 for the 2nd month; \$3.00 for the 3rd month; and \$10.00 per month thereafter. The farmer is required to supply room and board. Applications can be obtained at the municipal office.

A grant of \$45.00 was allowed towards scarifying by the government graders of the road leading east from Didsbury.

A number of accounts and pay sheets were passed for payment.

DIDSBURY RINKS LIMITED NOTICE

The annual meeting of shareholders of Didsbury Rinks Limited will be held at the office of A. C. Fisher on Friday, November 22, 1935, at 8 p.m.

Legion Supper, Concert Very Successful.

The severe weather did not prevent the Remembrance Day supper and concert given by the local branch of the Canadian Legion from being a decided success.

About 250 people sat down to an excellent supper provided by the ladies.

At the concert the Opera House was well filled and an exceptionally good program was given by local artists.

The School Orchestra played a number of selections and acquitted themselves admirably. Led by Mr. C. R. Ford they have shown wonderful improvement and many favorable comments could be heard of their ability.

An instrumental trio was given by Mrs. Bolton, Miss E. Liesemer and Miss Dorothy Ranton; vocal solo by Miss Edith Webster, monologues by Miss Weiss and Dave Jenkins and the usual comedy songs by Jack Robertson.

Every item on the program was well received and several encores were called for.

Mr. W. A. Austin was in the chair and gave an excellent address. A hearty vote of thanks was passed to the artists and the ladies who had supplied such an excellent supper.

After the concert the floor was cleared and dancing was enjoyed to the strains of Halliday's orchestra until the early hours of the morning.

The officers of the Legion wish to thank the ladies and artists and all those who helped to make the supper and entertainment such a success.

NOTICE.

The local Elevator Men wish to announce that COMMENCING MONDAY, NOV. 11th all elevators will be closed on Wednesday afternoons at 1 o'clock.

Also on other holidays as taken by the local business houses.

Recreation A Vital Necessity

Ever since some authority discovered and told the world that every man should have a hobby, the dictum has been reiterated at intervals by later authorities with varying degrees of emphasis and sometimes by those who are interested in promoting some form of amusement or recreation.

Whether uttered, however, with or without an ulterior motive the assertion is one which has a sound foundation in psychology and human experience. It is first cousin and as well founded as that more popularly known saying: "All work and no play makes Jack a dull boy."

While a hobby or recreation is a valuable adjunct to work for man at all periods of his march from the cradle to the grave, in at least two stages of his progress, in youth and in old age, it is an absolute essential if he is to achieve the goal of life—happiness.

The word recreation itself gives a clue to the reason. Re-creation, the making over again of the individual as he seeks relaxation from the "trivial round and common task" means what it indicates.

Unless a man is content to be a dull clod, he must refresh and re-create himself by seeking relaxation in some pursuit which, for the time, will lift him above the cares and worries incidental to earning his daily bread and providing for the needs of those dependent upon him. He needs some interest, which will infuse rest into aching limbs or brush away the cobwebs from the brain.

In youth this diverse interest may take the form of athletics, mechanical activity and with a minority, some more sedentary type of relaxation, but no matter what form it may take, it is essential to the development of a sound, robust citizenship, that youth should be allowed time for recreation.

The lad or young man without a hobby is apt to become morbid and unhealthily introspective. Youth is normally a period of superabundant energy and this overflowing vivacity should be allowed to express itself in forms of healthy recreation, and if it can be used as a step ladder to a life vocation, it is that much more to the good.

Many a youth has "found" himself in the pursuit of a hobby. History is full of stories of boys and young men who have made good in later life because they have been allowed to follow their bent and of many more who have done so despite overwhelming obstacles and discouragements. By all means encourage the young man to take up some interest, apart from his daily work and chores.

And if a hobby is essential to youth it is vital to old age. There is no more pitiful sight than the old man whose physical powers have waned and who has no interest in life or in living. Such a man is a burden to himself and an incubus to his associates. He is misery personified and makes miserable those with whom he comes in daily contact.

But the old man who has built up an interest secondary to the life work which he pursued in his prime is spared these pains and penalties of advancing years. As he becomes physically enfeebled he is able to turn his hand and his mind to a pursuit which daily grows in fascination, because it can be taken for granted, that the hobby which he has developed is something which he likes and in which, therefore, he can excel. Such a pursuit will go far towards prolonging life itself and will certainly give zest to the declining years. Gloom will give way to sunshine and contentment will displace moroseness.

But it is too late for the aged to develop a hobby after they have reached the sere and yellow. The old adage, "You can't teach an old dog new tricks" is applicable to humanity. There may be exceptions but that is the rule. That is one of the reasons why, even during the crowded years of prime and middle life, a recreation is not only advisable but essential. It is an insurance policy for a contented and interesting old age.

Moreover the man who diversifies his interests beyond his life's vocation, even during the period when life is at the full, is more likely to have an old age in which to further develop his hobby. It need not necessarily be something apart from his daily work. It may well be something related to it, in which event its pursuit will yield additional interest and perhaps more tangible dividends in the task of making a living.

Building Up Air Force

Chinese Dancers Are Willing To Help Aviation League

Dancers are to do their bit in helping China get together a strong air force. This is a result of a request

by the China Aviation League to the proprietors of Chinese dance halls in Shanghai for a charge of five cents on every dollar earned in their establishments to go towards a fund for the purchase of airplanes. The dance hall owners will pass the five cents charge on to their customers. The proposal has been accepted by 20 dance halls and others are expected to notify the Aviation League of the compliance before many dance-nights have passed.

Compiling Jewish Dictionary

Will Be First One Ever Prepared For Publication

Declared to be the first dictionary of the Jewish language ever compiled, a work is being prepared for publication by the Institute of Jewish Proletarian Culture of the White Russian Academy of Sciences, according to a report from Moscow. It will be issued in three volumes. The White Russian State Publishing House is also preparing to publish Jewish translations of the world's literary classics. Among the first to appear will be Shakespeare's "Othello" and "Romeo and Juliet" and Schiller's "William Tell."

Heading the best sellers among Braille books published by the National Institute for the Blind in Great Britain are the Bible and an Edgar Wallace novel. 2121

Assistance Will Be Given

Alberta Government To Help Exhibitors At Winter Fairs

Alberta Government will once again assist seed grain exhibitors at the Toronto Royal Fair and Chicago International this fall. For the Royal Fair, entry fee and shipping costs to Toronto will be paid on boys' and girls' club exhibits. Return shipping costs will not be paid.

At Chicago International Hay and Grain Show, where Alberta has made such an outstanding record in seed grains for the past 15 years, the government will pay shipping costs on approved exhibits. Prize money in the regular grain sections at Chicago won by Alberta exhibitors will be duplicated by the provincial government. In the case of one or more first prizes or championships being taken, a special bonus of \$50 will be granted, which will be increased to \$100 in the case of championships in wheat, oats or barley. The provincial fielderops branch will as far as possible supervise the arrangements for the exhibits.

Still In The Lead

No Book So Widely Read As The Bible

The Bible of the present generation is the outcome of centuries of research and patient effort. It contains 66 books in one, covering history, psalms, prophecy, romance, law, liturgy, biography, and letters delivered as correspondence. Men like King George read a part of it every day for guidance and encouragement in their tasks; Sun Yat Sen, Chinese follower of Confucius, Mahatma Gandhi the Hindu, and Kawaga of Japan, pored over it and were moved to their destinies by its teaching. It is read in palaces and in mud huts. Each year the Bible societies of the world send out 25,000,000 copies in hundreds of languages. In spite of supposed religious indifference it is the most read book in the world.—St. Thomas Times-Journal.

Receive Cordial Welcome

Employees On Bessborough Estate Glad Family Is Home

The Earl and Countess of Bessborough and their family received a cordial welcome from employees of their estate when they returned to their home, Stansted Park, Hampshire, England.

The earl has just completed his term as governor-general of Canada.

Flags waved as the Bessborough's car passed beneath an archway of foliage bearing the words "welcome." An address of welcome was presented.

Parents and children from the estate were entertained at tea and a bonfire concluded the celebrations.

Brings Back Heavy Mail

M. M. MacLean, of the Post Office Department at Ottawa, is home from the Arctic with a mailbag almost as big as Santa Claus's. Mr. MacLean went north with the Government's annual Arctic expedition to inspect far northern post offices. He brought back 13,000 letters sent north by Philatelists to be stamped by Royal Canadian Mounted Police officers at post offices on the roof of the world.

Crop Worth Half Million

Growers estimate the 1935 crop of hops in the Fraser Valley at 1,700,000 pounds with a value of half a million dollars. This represents an increase of 300,000 pounds over 1934. Some 2,000 pickers were employed in harvesting the crop.

PREVENT CHAPPED
ROUGH HANDS—apply
HINDS Night and Morning

Might Spoil Their Appearance

Army Troopers Prefer Jail To Having Hair Cut

Troopers of the Czechoslovakian army went on strike recently to escape the great peril of having their hair cut. About 40 of the men stationed at Olomouc flatly refused to obey their commanding officer when he ordered them to report to the barbers for a trimming. They clung to their determination not to have their hair cut and were sent to cells. Their reason, they said, was that they were about to be discharged from the army and would have to look for work. Everyone knows that a smart appearance counts for a lot in getting a job, they pleaded, but who can look really smart with one's hair cut like a convict's?

First Bicycle In Bavaria

Built In 1864 It Is Made Entirely Of Wood

Bavaria's first bicycle, built by the famous German sports instructor, Johann Friederich Trefz, has been acquired by the Deutsches Museum at Munich. The bicycle is made entirely of wood, and was designed and built by Trefz in 1864. Peasants, when they first saw him pedalling the wooden machine along the road around Munich, shouted "witch-doctor!" and often threw stones and crossed themselves. Trefz only managed to overcome Bavarian prejudice after he had built an indoor bicycling hall in Stuttgart to "introduce Germans to the bicycle."

Must Have Good Method

Tokio Claims To Know Number Of Flies Swatted

In Tokio they have a way of counting the flies they swat. You have the word of Norimi Iguchi, health prevention chief, that exactly 106,124,516 flies were swatted in Tokio in two days. He does not say who counts them or how, but he explains that the slain flies were packed in 175 large sacks. The champion fly-killer was a fish merchant, who felled 93,000 with deadly accuracy.

Fear Shortage Of Ships For Vimy Pilgrimage

Railways Grant One Cent Per Mile Rate—Applications Pouring In At Rate Of One Hundred Per Week

Canadian Great War Veterans and their next-of-kin are taking no chances on being left behind when the special Pilgrimage Liners leave Montreal for overseas in July next. Mr. Ben Allen, Dominion organizer for the Vimy and Battlefields Pilgrimage, who has just returned from England, France and Belgium, announced that reservations to date number 2,000 and expresses fear that thousands of Canadian war veterans and their next-of-kin may be disappointed in failure to obtain passages unless applications are filled immediately.

"We have just returned from meeting the steamship people, stated Mr. Allen, and they have warned us that boats may not be available unless reservations are in early. It will be too late if a last few months rush develops. Unless we can definitely state within the next few months what the number will be, there will be many returned men disappointed."

"Applications are coming in now at the rate of over one hundred per week, but with the authorization given us by the Canadian National Railways and the Canadian Pacific Railway Company to announce a flat rate of one-cent-per-mile to and from Montreal for every Pilgrim from his or her home address, we will be swamped with reservations that may fill up our ships."

Employers everywhere are extending the greatest co-operation to their returned men and women employees. Canadian Line Materials Limited, Scarborough Junction, Toronto, have arranged for all of their ex-service employees to deposit with the company as much as they wish from their regular pay cheques—and the company guarantees to double the amount to the employees' credit on April first of next year. "The plan has gone over big," states W. Atkinson, Assistant plant superintendent.

Interest in the Vimy Pilgrimage is being shown at every gathering of returned men. With the usual Battalion Re-union Dinners commencing in October—the great Memorial Day parades in November, and Christmas activities, it is anticipated that Canada's Peace Army will be a significant warning to Europe of the sentiment in the Dominion against participation in future wars.

Swing Back to Ogden's

Thousands of other "roll-your-owners" are swinging back to Ogden's Fine Cut simply because only Ogden's gives them the satisfying cigarettes they want. With better times, you too, can afford the little that Ogden's Fine Cut costs, and it means everything in smoking enjoyment. Ogden's rolls best with "Chantecler" or "Vogue" papers.

52 Poker Hands, any numbers, now accepted as a complete set.

OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

In Pernambuco, piano movers carry the instruments on their heads. Six men carry the load, and the seventh goes ahead to clear traffic.

If wood is completely submerged in water and kept so at all times, it will not decay.

NOW TAKE HEALTH from LITTLE MANITOU SPA

FAMOUS MINERAL SALTS BROUGHT TO YOU

Carlsbad, Vichy and other resorts in Europe are famous for their mineral springs. Canada, too, has its Carlsbad, for Little Manitou Lake in Saskatchewan is an amazing lake—a lake of wondrous virtues—yielding medicinal salts of potent curative properties.

These powerful health-giving salts are extracted from the waters of the lake, cleaned and prepared, with the addition of Iodides, by expert chemists. They are then available to you as "Saskasal"—a very fitting name for these medicinal Spa Salts of Saskatchewan.

Saskasal is a non-effervescent salt highly recommended in all ailments arising from over-acidity of the blood. If you suffer from Rheumatism, Neuritis, Mild Stomach Disorders, Kidney and Liver troubles, Impure Blood, Skin Eruptions and Constipation, a short course of Saskasal will soon put you in the chorus singing its praises. If you are drifting along in indifferent health, one bottle of Saskasal will give you a new experience of what it feels like to be in real good health. If you think you already enjoy good health, take a sample of Saskasal and then judge if your stomach, kidneys and bowels needed the flushing Saskasal gave them.

On sale at your druggists—enough for 10 weeks' treatment—69c a bottle.

Many Changes Brought About In Canada Through Motor Car Development

Canada's highways and motor cars present a striking illustration of changes brought about by progress and invention.

In the early days of settlement, roads were auxiliary to water routes as avenues of transportation. They were used during the summer season when portages were necessary to avoid obstacles to river and lake travel, and during the winters when ice prevented navigation. The growth of population and the demand for means of communication between settlement points soon made necessary the introduction of overland routes, and road construction in Canada got under way in the pioneer stages of the development of the country. Exclusive of the streets in cities, towns and incorporated villages, the total mileage of surfaced roads in Canada at the end of 1934 was 93,642, over half of which was in Ontario. The mileage of unimproved and improved earth roads was 315,627 miles, making a total of 409,269 miles of rural roads in Canada.

The automobile has played a most important part in Canada's road history, especially during the last twenty years in which the motor car has come to rank as a necessity of life to a large proportion of the population. The motor car made its advent in Ontario in 1904, when 535 vehicles were registered, and from that meagre number registrations in the Dominion as a whole grew by leaps and bounds until they reached the peak figure of 1,232,489 in 1930. The next three years showed a slight decline, but in 1934 the automobile again gained ground with registrations totalling 1,129,532 vehicles, a gain of 46,575 over 1933.

Canada has a wealth of highways and motor cars, and the extent to which the Canadian people now enjoy the educational and recreational values of travel reflect the new and higher standards of living which progress and invention have placed practically within reach of all.

May Not Sign Contracts

Kansas Farmers Not Sure Wheat Production Should Be Restricted

Whether new wheat control contracts will be signed by Kansas farmers under the United States Agricultural Adjustment Act apparently rested largely in the hands of the war gods hovering over the old world. The Italo-Ethiopian war and the tense European situation were being watched closely by the farmers.

The fact the United States already is importing Canadian wheat due to reduced domestic supply led to speculation whether the planters of the vast grain belt would consent to follow a new curtailment program. A.A.A. sign-up success would keep fully 600,000 acres in Kansas out of production, an area that normally yield 6,000,000 to 10,000,000 bushels annually.

China Has Ignorance Tax

People Who Cannot Read Or Write Must Pay

An ignorance tax is the latest form of taxation. After April 30, 1936, anyone on the city streets who cannot explain a simple lesson in the standard Chinese primer to any policeman who questions him will have to pay a tax of one copper—the "ignorant people's tax," which is the backbone of the drive against illiteracy. More than half the citizens of Nanking can neither read nor write, and the government has decided something must be done about it.

Sermon Was Appropriate

To avoid confusion when lights failed in the Central Baptist church at St. John, N.B., during a hymn, Rev. Dr. Bruce D. Knott immediately began his sermon. The subject was the five foolish virgins who neglected to have their lamps filled with oil. The services ended in darkness.

Fireman: "Why were you kissing my girl in a dark corner last night?"

Seaman: "Now that I've seen her in the daylight, I wonder myself."

The Best Tank Heater

Wood-Burning Fireplace Under Galvanized-Iron Tank

After trying many ways of tempering drinking water for cattle and horses, the superintendent of the Beaverlodge Sub-station has decided that, for any situation where the fire hazard does not forbid it, the best system is a wood-burning fireplace under a galvanized-iron tank. The fireplace may be made of cement-concrete walls long enough and wide enough to support the metal tank in which the water is to be warmed. It is convenient to have the fireplace about twenty inches deep and to have a hinged iron door at the south or west end of it, with a four-foot brick chimney at the opposite end. Do not stick a stove-pipe length in this chimney to increase the draft. It will invalidate the fire insurance on any building situated within 60 feet unless the fact is reported to the insurance company and a much higher premium paid. Many companies decline to accept insurance where a metal chimney flue is used. The insurance agent raised no demur when the writer proposed a concrete fireplace with a brick chimney but warned against increasing the height by using a single length of stove pipe.

Flush with the top face of the wall, a few cross bars of iron may be embedded to support the bottom of the tank. It is also well to have a sheet or two of old iron underneath the metal tank to protect its bottom, and especially its seams, from the direct blaze of the fire beneath.

Draft may be improved and heat economized by banking with earth, except at the fireplace door, and along the side from which the animals are to drink. Some protection may be provided even there.

Old fence posts, old poles or lumber, knotty wood or willow roots grubbed from the breaking make cheap fuel for such a fireplace and usually one or two fires a day will suffice.

Old Test Was Accurate

Grandma Knew How To Tell When Linen Was Linen

Grandma knew! When she wet her index finger, thrust it into a fabric, and peered anxiously at the result, she wasn't just being pernickity. She was utilizing what is still—even in this age of complex testing devices—one of the most effective ways for determining whether material is cotton or linen.

The finger test is effective, J. A. Nary, chief of the U. S. testing company's laboratory in the merchandise mart at Chicago, explained, because linen absorbs water more rapidly than cotton. Thus when water is placed on a mixture—cotton threads running one way, linen crosswise—it forms a oblong spot instead of the circular one characteristic of pure linen.

In all cotton the spot will be circular, too, but the water will remain on the surface a long time before being absorbed.

United States Butter

Government Official Does Not Expect That There Will Be Much Need For Importation

Secretary of Agriculture Wallace predicted there would be little importation of butter by the United States in the next year, says a despatch from Washington.

"I'm speaking on a percentage basis, of course," Wallace said. "You can talk about so many thousands of pounds coming in and make it sound imposing, but as a percentage of the total it won't be important."

The statement was his answer to a press conference inquiry as to whether he believed an increased tariff on butter, such as had been suggested by a New York group, would be justified.

A movement has been started to introduce Irish stew in Irish Free State hotels.

Geological Survey Work

Large Areas In West Are Found Favorable To Prospecting

Large areas of territory favorable to prospecting have been brought to light as a result of this season's geological survey work which sent 188 parties to the field in 65 projects financed by \$1,000,000 provided under the supplementary public works act.

The surveys found territory suitable to prospecting for gold and at least one promising silver area. Those geologists who have already returned from the field are busy preparing their reports which will be made available to prospectors next year.

Surveys in one area of the north-west territories revealed about 2,900 square miles of good prospecting ground for precious metal deposits and one occurrence showing free gold was staked by prospectors in the wake of one of the government parties.

One of the Manitoba projects reported it had mapped 200 square miles of favorable gold prospecting ground. Some prospecting areas were found in Northern Saskatchewan, while a British Columbia party found tests should be made of tertiary gold-bearing gravels overlooked in the early placer mining days when the district yielded rich rewards.

In an area west of Lake Superior copper-nickel mineralization of the Sudbury type was found. Sporadic outcroppings, not yet proved of economic significance, occur over a distance of 14 miles. Three hundred square miles in the same district were found favorable to occurrence of silver.

Could Not Be Done

A man presented two keys tied with string to a clerk at Leeds Post Office in England and asked for them to be forwarded with a telegram which he wished to send. He was surprised when he was told this was impossible. He said he understood money could be forwarded with a telegram.

"That Miss Smith can't tell a thing without exaggerating."

"Did you ever ask her age?"

Experts Of League Give Advice On How To Cure Crisis In World Trade

Rusted Wheat

Grain Board's Report Show 17 Per Cent. Graded As Rusted

Some indication of the damage caused by rust to western wheat is given in the report of the statistics branch of the board of grain commissioners on the movement of western Canadian grain for September. Approximately 17 per cent. is graded as "rusted." Improvement in exports of wheat is foreshadowed. The report follows:

The export movement of Canadian grain to overseas destinations has been slow indeed during the first two months of the crop year. There are, however, abundant indications of a substantial improvement developing.

Now that the movement from country points is in full swing, a better idea of the effect upon this year's crop of rust and unfavorable climatic conditions is obtainable. Using the inspection returns for the first nine days of October as a basis of calculation, 17 per cent. of cars of bread wheats graded into the "special" (rusted) wheat grades and feed, 14 per cent. graded number 5 and 6 and 48 per cent. 3 northern and better. The heavy increase in the proportion of light-weight grain is reflected in the lower average weight per carload unloaded at the terminals, 1,474 bushels in September as compared with 1,518 bushels a year ago.

Not Caused By 'Quakes'

Although ancient Rome had numerous earthquakes, there were never any of outstanding destruction. Some historians contend that many of the Roman palaces and temples said to have been destroyed by barbarians between the fifth and ninth centuries were really shaken down by quakes.

Ethiopia is exporting more coffee, hides and goatskins than at this time last year.

"Physician, heal thyself!" Well might that mocking cry epitomize the advice of economic experts of the league on how to cure the crisis in world trade, says a report from Geneva.

Everywhere doctors—individuals and governments—are at work. They are employing purely national remedies for the disease. "The doctors have not yet been able to agree," a report of the league's economic committee comments in tone of disappointed reproof, "and it has so far been impossible to attack the disease in the proper way—i.e., internationally."

"Accordingly, the malady from which the world is now suffering is no longer entirely the crisis but rather the inability of the countries to co-ordinate their several efforts to emerge from the crisis. This inability to emerge from the crisis is a result of the paralysis of the international circulation, the regular operation of which is indispensable to the welfare of the civilized nations."

The sixteenth assembly of the league, representing 54 nations, gave its blessing to free international trade. The secretary of state for the United States sent a telegram of approval. Recovery of trade, the assembly resolution held, would be assisted by the conclusion by as many countries as possible, of bilateral agreements having for their object the application of a more liberal economic policy. The resolution held further that the beneficial effects would be more widespread when based on the principle of the most-favored-nation clause. Agricultural experts are, in addition, to be consulted with a view to finding a world solution for agricultural depression.

And documents submitted present a revealing picture of a world where doctors went wrong. Two facts emerge. The first is the steady and very substantial recovery in raw material production and industrial activity. The second is the almost complete stagnation of international trade.

Canada To Gulf Shelter Belt

125 Miles Of Planting Finished In Six States

A start has been made on the great Canada-to-the-Gulf shelter belt about which so much was said and written a year ago, according to an announcement in the Forestry News Digest published by the American Tree Association, Washington, D.C.

Paul H. Roberts, acting director at Lincoln, Neb., says in the Digest that 125 miles of shelterbelt plantings have been completed in the six states traversed by the zone. An additional 5,117 acres of special tree plantings on 1,926 farms have been completed. This later planting was made in co-operation with farmers.

On the 649 acres of land now under lease for nursery purposes, seeding is being rapidly completed, and a number of the species are up. Barring extreme weather conditions or unforeseen insect infestations, it is expected about 75,000,000 seedlings will be produced.

North Dakota, with 36 miles of strip plantings has the largest mileage. South Dakota with 28, and Kansas with 24, are close contenders. The mileage planted this year was very largely restricted by the amount of suitable nursery stock available, both as to age and variety of trees.

The wide climatic conditions encountered throughout the shelterbelt zone, make it necessary to grow a variety of trees to meet this range of conditions. Each state must plant to meet its own particular needs.

Plan Has Proved Success

That the experiment of the Canadian railways in the introduction of their pick-up and delivery freight services has proved to be an unqualified success, this year's summer months' shipments alone increasing more than eight million pounds per month, over the same period of last year, was stated at the annual meeting of Canadian National Railways Agents' Association.

The SNAPSHOT GUILD

SHADOW SHOOTING

Experiment a little with shadow effects. You'll enjoy it.

Did you ever snap shadow pictures? If you haven't you have missed a lot of fun and failed to get some grotesque but fascinating pictures to add interest to your snapshot collection.

Shadow pictures are easy to make, too. The main requisite is a good, strong sun in the late afternoon or early morning. Late afternoon, perhaps fifteen or twenty minutes before the sun starts gradually to disappear below the horizon, is preferable, for your light is usually stronger at this time and casts deeper and sharper shadows.

The two pictures above are only a couple of examples of the many unusual pictures to be taken with the aid of a strong sun. The picture to the right was the result of an alert amateur's "nose for pictures". As he started down the steps of the elevated train platform—with his always ready camera—says he, "Here is a picture," so hurriedly set the diaphragm at f.11 and shutter speed at 1/25 of a second and snap—he had a fine shadow picture. As the man at the bottom of the

steps was walking away from the camera a shutter speed of 1/25 of a second was fast enough to stop action and still give the proper exposure.

Obviously the picture to the left was posed but it shows further possibilities for taking unusual shadow picture. An ideal place for taking shadow pictures is on light colored ground; the cement sidewalk, the street or better yet—on beaches where the light sand accentuates the dark body and outline of the shadow.

You can also get unusual shadow pictures by standing so that your shadow is cast on the side of a building or a house.

Here's one thing to remember. If you take pictures with the shadow cast on a light colored surface the exposure should not be as long as that used in taking pictures with the shadows cast on a dark background. In other words you make your exposure for shadow pictures but little longer than you would for an ordinary snapshot with the same lighting conditions.

Characteristics of Alberta's Main Bacon Hog Breeds

Of late years the breeds of swine in general use in Alberta have been narrowed down to the two foremost bacon breeds, Tamworth and Yorkshire. The Dominion Experimental Station, Lacombe, has found that each breed has its own particular advantages and disadvantages, and that there are good and poor strains in each, so that the selection of the strain within the breed is more important than selection of the breed itself. Breeding stock should show good breed type, with plenty of constitutional vigor, and should be from parent stock of proven performance, both as breeders and feeders.

Unfortunately, Tamworth sows are not as prolific as Yorkshires. The pigs have good depth of side, but are somewhat lacking in length and in filling of the hindquarters. However, Tamworths almost invariably show good fleshing of back and loin, and are well finished at a weight of from 200 to 220 pounds.

Yorkshire sows of good strain produce large litters of uniform, easy-feeding pigs, possessing good length, a large proportion of which grade select. Because of its white color and consequent tendency to sunscald some breeders are prejudiced against the Yorkshire; however, supplying suitable shelter and oiling the pigs will greatly lessen the damage done by the sun. As they are quite the best for winter feeding, and as both experimental work and practical experience have shown that Yorkshire pigs of good feeder type will produce pork at lower feed costs than any of the other breeds, Yorkshires are popular with most farmers. Also, because of the absence of the "seedy cuts" common in the colored breeds, the Yorkshire enjoys the favor of the packer.

Boy Finds Bottle Containing Money Floated For Miles.

Seventeen months ago Arthur L. Wilson, of Big Valley, put a two-dollar "bearer" cheque in a beer bottle and let it float downstream from a point on the Red Deer River near Big Valley.

Recently he received a letter from Jimmie McLane, an Acadia Valley youngster, who reported picking up the bottle and cashing the cheque.

Jimmie reported as follows:

"While gathering firewood on a small island three miles west of Bindloss, I stumbled over a beer bottle. A while later I came across it again and picked it up. To my surprise there was something in it. When I opened it there was a two-dollar cheque wrapped in waxed paper. This cheque will come in handy as we feel this depression very much."

Mr. Wilson says he "floated" the bottle May 24, 1934. His idea was to see how long it would be before it was picked up. It travelled considerably more than 200 miles. The boy found the bottle on October 2, 1935.

—HERALD

Items of Interest

Notices have gone out to leading organizations of farmers in all provinces of Canada, inviting them to send delegates to a conference slated for Toronto, November 26-28, H. B. Cowan, secretary-treasurer of the Canadian Dairy Farmer Federation, announced last week.

The conference has been called by a Dominion-wide committee appointed at a meeting held in Ottawa last February, he said.

Supreme Court of Canada will be asked to test the constitutionality of the Farmers' Creditors Arrangement Act, it was announced Friday by Minister of Justice Lapointe. It will be examined by the court in the same general reference as the reform bills and price spreads legislation.

When Premier Aberhart and several of his ministers leave for Ottawa shortly to submit the province's application to the Dominion for financial aid and also to make a \$155,000,000 debt refunding proposal, they will be accompanied by Robert J. Magor, Montreal, actuary and industrial expert, who is here making a general survey of departmental operations in order that the province may balance its budget.

RUGBY NOTES

With an attendance of 15 Rugby
W.I. held the November meeting at
the home of Mrs. George Youngs.
After the business session Mrs. A.
Krebs gave a most enjoyable talk on
her motor trip last summer, illustrat-
ing it with a number of snapshots
and views of the various places visit-
ed. It was decided to raffie the
"Butterfly" quilt at the December
meeting, and all members who hold
ticket books are requested to turn
them all in on, or before, Dec. 5th.
The December meeting will be held
at the home of Mrs. August Krebs,
and being the annual business meet-
ing, with election of officers, it is
hoped every member will endeavor
to be present.

Melvin Notes

The Go-Getters made a good
start toward their hall but the cold
snap destroyed the foundation
work. They hope to get at the
work again soon. The help of all
those who can give a hand will be
greatly appreciated by the club.

The Club is opening the seasons
entertainment with a whist drive on
Tuesday evening, November, 19 at
Melvin School. Ladies please bring
lunch. Everybody welcome.

We are pleased to hear that Mrs.
Carlson is improving after her ill-
ness. She is visiting in Calgary
with friends this week.

Dorothy Youngs, Florence Bis-
set and Dolly Spence attended the
teachers' convention in Calgary.
Hazel Ray and Edith Mann went to
Olds convention. There was a
great deal of discussion at both
conventions on the new course of
study. Miss Edna Hehn of
Clovermount School was one of
the principal speakers at Olds.
Mr. Edgar Wiggins a former Mel-
vinites was elected president by the
Olds Convention.

Maud Johnston and Joyce Jack-
son who are attending Didsbury
High School spent their holidays at
their respective homes here.

Sally Dougan of Bergen who has
been with Mrs. Peter Johnston for a
couple of months returned to her
home last week.

The Westcott Ladies Aid meeting
has been postponed until December
11th.

There was a good crowd at the
W.I. meeting held at the home of
Mrs. George Youngs last week.
Mrs. Aug Krebs travel talk on her
trip last summer was very much
enjoyed. They visited Mrs. Orin
Swingle at Chilliwack, B.C. She
inquired of and wished to be re-
membered to all her Melvin friends.

Mr. and Mrs. Jim Adam and
Janet of Springside spent Thursday
with Mr. and Mrs. Chas. Youngs.

Wm. Morgan of Eagle Hill, Mrs.
McNaughton's brother, spent Tues-
day with Mr. and Mrs. Roy Mc-
Naughton.

Mrs. Eddie Krebs spent Tuesday
at the home of Mr. and Mrs. John
Allen, the guest of her sister, Mrs.
Thompson Allen of Wetaskiwin,
who has been visiting relatives and
friends for the last two months and
was returning home this week.

Lila Weidner of Westcott spent
a few days last week with Mr. and
Mrs. Otto Krebs.

Carrie Oliver of North Haven,
Sask., is visiting Mrs. Emil Krebs.

WEEKLY SERMONETTE

"The King of love my Shepherd is,
His goodness faileth never,
I nothing lack if I am his
And he is mine for ever."

"If loss confronts you, don't
give up. Others have lost before,
and turned the experience to profit-
able account. Prove the greatness
of the qualities within you by new
and enthusiastic effort"

WEEKLY JOKE

Little Jackie was taking a walk
with his big brother when he sudden-
ly became very thoughtful "I say,
Dick," he exclaimed at last, "is a
tin trumpet made of tin?" "Why,
of course," replied Dick. "Then
why is it a foghorn's not made of
fog?" asked Jackie.

Coming Attractions at the Movies

Didsbury, during the last few
weeks has been treated to some very
outstanding pictures, and for the
balance of the year Mr. Sharp has
booked pictures all of which have
had the acclaim of movie goers
throughout the continent.

The following extra special book-
ings have been made:

Nov. 20-21: "Gay Divorcee,"
with Fred Astaire & Ginger Rogers

Nov. 23: "The Little Minister,"
with Katherine Hepburn.

Nov. 27-28: "Life Begins at 40,"
with Will Rogers.

Dec. 4-5: "Call of the Wild,"
with Clark Gable & Loretta Young

Dec. 11-12: "Freckles," with
Tom Brown and Virginia Weidler.
From Gene Stratton-Porter's popular
story.

Dec. 18-19: "Our Little Girl,"
featuring Shirley Temple.

This week's attractions are both
films which have proved very popu-
lar; tonight (Thursday) George
Arliss in "Cardinal Richelieu," and
on Saturday Will Rogers in "Judge
Priest," which many have declared
is the best picture that Rogers ever
produced.

Evangelical Church Notes

The Lord's supper will be obser-
ved next Sunday morning. There
will be reception of members pre-
ceding the Communion Service.
Rev. W. W. Krueger, district su-
perintendent, will preach at both the
morning and evening services.

The Quarterly Conference will be
held Friday evening, November 15,
at eight o'clock. All members are
urged to be present.

Rev. F. F. Jordan, Evangelist and
Bible Lecturer, will commence a
series of special services in our
church beginning Sunday morning,
November 24th. Watch for further
announcements.

Now Science Explains Why So Many People Past 40

Feel That They're Slipping
Losing Their "Grip" on Things

Many people "round 40 think they're 'growing old.' They feel tired a lot... 'weak.' Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person! Take either the familiar liquid "PHILLIPS" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

ALSO IN TABLET FORM:
Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of the liquid form. Phillips' Milk of Magnesia.

PHILLIPS'
Milk of Magnesia

WORLD HAPPENINGS BRIEFLY TOLD

Robert W. Babson, statistician and economist, predicts the United States will be out of the depression in six months and headed for prosperity.

Winnipeg's death rate has been cut almost in half in the past 25 years, health department figures show. In 1910, the rate was 13.6 per thousand population. Last year it was 7.6.

At two mass meetings in Kingston, Jamaica, "congratulations" were extended to Great Britain for her stand against Italy before the League of Nations.

Sixteen persons were killed in Moscow when an eight-storey building collapsed during construction. The number of injured was not immediately known. A building on the same site collapsed in 1913.

Jackie Cooper of Jasper Park, Alta., riding "Stamp" to victory, captured first prize in the cowboy's saddle bronk riding contest at the 10th annual world's championship rodeo at Madison Square Garden, New York.

A finding that the Mexican government "is seeking the abolition of religion" is contained in a report of a deputation sent to that country last summer by the American committee on religious rights and minorities.

A deed of gift disclosed that former U.S. Secretary of the Treasury Andrew W. Mellon has given more than \$10,000,000 to be used for a building and site for a national art gallery in Washington.

J. Grove Smith, Dominion fire commissioner, told a service club fire departments in various Canadian cities needed \$15,000,000 worth of new equipment to fill replacements and increases postponed during the depression.

Kind acts, like boomerangs, come home to roost.

Using Different Principle

Energy Of Sea Will Propel New German Liner

Resembling a ferocious monster of the deep, an ocean liner is being designed in Germany to make use of the sea's unlimited energy as a propelling medium.

The ship will have an opening in its bow that will give it the appearance of a giant whale swimming over the water with its jaws ready to devour anything in its path. This opening will gather up the ocean waves and pass them through the ship. The water will be ejected by means of spouts along the sides of the liner. The water, forced out under pressure, is expected to drive the ship forward at great speed. As a result the expense of operating a liner is expected to be reduced, says "Modern Mechanix."

Within the mouth of the ship will be an observation platform and a row of windows, through which passengers may watch the waves surging into the hold. The unusual liner will be streamlined to increase its speed.

R. J. May, an engineer of Pirna, Germany, conceived the idea for the novel ship. He plans to install a large suction pump at the rear of the liner's mouth. This will draw up the water and force it under great pressure through pipes to the spouts along the sides. The electric motor driving the fan will be powered by a Diesel engine.

May plans to build a model which will be tested on the Elbe river near Dresden, capital of Saxony. If tests prove successful, the engineer will seek to interest steamship companies in his project.

Unlike the ordinary liner which has propellers at the stern only, May's ship will have nine points of propulsion. These are the nine spouts located at the sides and stern.

Latest In Motorships

Luxurious Rooms For Passengers On Denmark's New Freighter

The motorship Canada, newest and finest ship of the Danish East Asiatic Line's fleet, arrived recently on her maiden voyage from Europe to Port of Vancouver.

Captain C. Knudsen, well-known in the port, formerly master of the company's Amerika, commands the new Canada.

Canada showed the port of the latest in modern ship architecture, with refinements that have been inspired by travel competition.

She is an up-to-the-minute freighter, with refrigerator space, in addition to regular cargo space, for 75,000 boxes of fresh fruits.

But it is her luxurious passenger accommodation for 55 passengers which will attract the attention of landmen. Beauty and convenience are allies aboard Canada.

Appointments include a large dining room, which seats all passengers, luxurious social rooms which include a smoking saloon, ladies lounge, dance foyer, cocktail bar, children's dining room, and a built-in swimming pool—the first on any ship plying between the Pacific coast and Europe direct.

In the smoking saloon are paintings by Riberhold of Denmark's most-famed scenic attractions. In the dining room is a painting of Fredensborg Castle by Axel Johansen.

All rooms on the new ship are air-conditioned, all are outside and equipped with standard beds. Seventeen of the 25 double staterooms have private baths. There are five single rooms.

Organist Wins Prize

Wins Competition Sponsored By I.O.E.E. Of Winnipeg

Walter MacNutt, A.T.C.M., organist and choir director of Trinity Anglican church, Barrie, Ont., received word he had been awarded first prize of \$50 in a nation-wide competition sponsored by the Assiniboine chapter, I.O.E.E., of Winnipeg, for the best musical composition submitted by Canadian composers.

Mr. MacNutt named his composition "Take Me To A Green Isle."

Mrs. Lillian J. Edward, Winnipeg, chairman of the musical committee of the chapter, informed Mr. MacNutt the song would be used in fall concert work in Winnipeg. 2121

CANADIAN BUSINESS CONDITIONS

A further fractional advance has been recorded by the McConnell, Baxter & Eastman monthly index of Canadian business conditions. The preliminary composite figure for the month of September was 81.3 per cent. of normal, compared with 81.2 per cent. (revised) for the month previous and 79.7 per cent. of normal in September, 1934.

Gains were recorded by three of the four component factors. Car-

loadings of revenue freight and construction contract awards each gained one-tenth point. Electric power production was up by four-tenths to an all-time high of 100.9 Bank debits receded two-tenths point. The following table shows the four component factors and the combined, weighted index after adjustment for normal seasonal variation, secular trend and price-level changes in the case of factors in which the original data are expressed in terms of dollars.

	Sept. 1933	Aug. 1933	Sept. 1934
Carloadings of revenue freight	76.9	76.8	76.5
Construction contract awards	64.2	64.1	63.2
Bank debits	96.5	96.7	94.9
Electric power production	100.9	100.5	87.9
Combined weighted index	81.3	81.2	79.7

Has Highest Death Rate

The highest death rate in the word according to statistics just published come from Skopje, a town in Southern Yugoslavia. Twenty-four out of every 1,000 inhabitants die each year there—twice the average rate for the rest of Europe. Lack of hygienic treatment for babies and a widespread tubercular infection of cows are stated to be the causes.

Tax Men Puzzled

County and city authorities of Vancouver, Washington, face a perplexing situation in the case of Earl Mangle Smith's home, which rests half in the city and half in the county. He eats his breakfast in the city and reads the morning paper in the county. How much to charge Smith in taxes by both officials is their problem.

Household Arts

PATTERN 5280

Crochet your gloves and you will be not only comfortable and warm but also right in style whether it's sports or dressy clothes you favor. This pair made in a soft wool will add an attractive note to your costume. The gauntlet glove with its lacy inset gives it a swaggy look. The wrist-strap adds to the trim appearance. And if you drive, they are just the thing for, though moulding beautifully to the hand, they give the ample freedom necessary in handling a car.

In pattern 5280 you will find complete instructions for making the gloves shown in a small, medium and large size (all given in the one pattern); an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Protection Of The Nile

Is Essential To Welfare Of Egypt And The Egyptian Sudan

According to a report from London, British India will, in case of need, furnish a large body of troops for the defence of British Somaliland, which borders on Ethiopia, in the neighborhood of the Italian advance. It is added that in certain eventualities a British expeditionary force from Great Britain may be required to protect the region of Lake Tsana, in Ethiopia. The protection of Lake Tsana is essential to the welfare of Egypt and the Egyptian Sudan, because it is one of the sources or potential auxiliaries of the Nile. And the Nile, as every student of history and geography knows, is the mother and father of tens of millions of people who dwell in the vast Nile valley. The overflow of the river furnishes the otherwise desert soil with water. British engineers have spent hundreds of millions of dollars in building the Assouan and other dams on the Nile in order to flood and irrigate the territory where the Egyptians cultivate their crops. To stop or to interfere with this vital agency in the prosperity of the country would doom tens of millions of people to starvation or exile. The protection of the Nile is one of the white man's burdens long ago assumed by Great Britain.—Toronto Mail and Empire.

Term Was Extended

Model Prisoner Who Defended Warder Given Longer Sentence

That a model prisoner who had defended a warder in Kobe prison has been given a longer sentence as a result, has just been reported from Kobe, Japan. The report says that two months ago a warder who reproved a prisoner for talking, was attacked, but the action was averted by Tarsuihi Joryo, who intervened in the warder's behalf. Later three other prisoners attacked Joryo in one of the prison corridors for his championship of the warder. Joryo defended himself against the three with a pair of scissors he had been using for sandal making. He stabbed one in the stomach and the two others in the arm. For this he was given an extra sentence of six months.

for CHAPPED SKIN
Dilute Minard's with one-half sweet oil or cream. Apply once a day. For Frost Bite use the Liniment freely and undiluted.

"One Wide River To Cross"
"The Unknown Port", Etc.

CHAPTER XXI.

The days that followed etched new lines in Columbine Nelson's face, for only a few hours after her second telegram to Massachusetts Jack took an unexpected turn for the worse.

"Shall I send for his people?" she questioned, when after a time that seemed endless a grave-eyed doctor emerged from the boy's room.

"I should wait," he answered. "If Jack were my own son, Miss Nelson, and I so far away, I should say the same. You see, if the end comes, it will be soon; and since his parents could not reach here in time to see him, isn't it kinder, and wiser too, not to harrow them with the knowledge of how dark the prospects look just now? If he lives through the night the boy will probably recover. He's putting up a magnificent fight; and every nurse and doctor in the place is fighting with him—in spirit, anyway. I don't say that his condition isn't desperate; but somehow I've the conviction that he'll make the grade."

Miss Columbine did not leave the hospital that night; nor did she close her eyes till early morning when a nurse appeared to say that Jack seemed to have turned the corner and his physician felt the worst was over. Not until then did the old lady cry a little, and the doctor ordered a powder that brought sleep. It was almost noon when she heard a rap upon her door, and Matthew Adam entered the room.

"Did I wake you, Miss Columbine?"

The Man Who Knows

Whether the Remedy
You are taking for
Headaches, Neuralgia
or Rheumatism Pains
is SAFE is Your Doctor.
Ask Him

Don't Entrust Your
Own or Your Family's
Well-Being to Unknown
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains . . . and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get
"ASPIRIN"

"No; I was only snoozing. How's everything now, Matt?"

The young man sat down on the bed and grinned at her.

"Jack's sleeping—naturally. Nancy isn't suffering this morning; and it looks as if the kids were coming through without a single amputation. That Osgood boy's been telling me what happened. I tell you, Miss Columbine, I take off my hat to Jack and Nancy—and to some of those brave youngsters too."

"I guess the papers didn't exaggerate this time," she observed.

"You're right. But just the same, I miss my guess if it's not some shock to those young relatives of yours when they read the story! How do you suppose it feels, Miss Columbine, to have the country regard you as heroic?"

"Well, it won't hurt either of 'em," responded the old lady. "They've got the Nelson common sense. It's I who's likely to be puffed up, Matthew. Think of the courage it must have taken for a boy to start out in the teeth of such a storm, especially when the driver had disappeared. And Nancy! A girl brought up as she's been—everything soft and easy so far—to do what she did—Well, all I can say is that my pioneer mother would have been proud of her!"

Matt noted with pleasure that Miss Columbine spoke with her accustomed briskness.

"You must go home to-day, Matthew," she said later. "It's been a comfort knowing you were here; but your father needs you, and I'll not be babied any longer."

The young man smiled.

"I've had orders per telephone, to stay on duty a day longer. Mark's on his way in from Prairie Ranch right now. Mother's coming down in the truck to take him home and, incidentally, pick out a new car! That's one good thing came out of this blizzard, Miss Columbine, we're practically forced to buy a decent automobile. The old one's done for; and even Dad can't rake up an excuse to put us off. The Adam clan is thrilled at the prospect. We're to have a family reunion at the Ford agency this afternoon."

Miss Columbine laughed and said: "Your mother deserves a modern car if anybody does. Is Mark all right again?"

"He'd come whether he was or not. They've had to take turns sitting on him to prevent his getting out of bed! All that kept Mark from joining that rescue party, Miss Columbine, was the fact that Aunt Em hid his clothes and locked the closet where Uncle Tom keeps his. I must run now and get a bite before I meet the family."

After this things went more smoothly, and the messages to Edgemere contained only the best of news. Thus there came a day some two weeks later when Nancy found herself in the big black walnut bed again, with General Grant looking down disapprovingly, she thought, on her Chinese coat; and Mark Adam looking quite the opposite, as he stood in the doorway.

"Perusing your fan mail?" he questioned soberly.

Nancy laughed. Her bed was strewn with newspapers and letters, not to mention various telegrams from her admirers. She laid down a cable from Aunt Judy and the Spear twins as she said:

"Come on in and be seated. No, not on the bed, Mark! My feet don't seem to belong to me yet, and I've got the feeling that if anybody sits on 'em they'll break off! Where's Matt? I want him to read some of these foolish letters. Can—can you beat that?"

She tossed him a missive; but before Mark had time to look at it, Aurora Tubbs puffed up the stairs.

"What'll you have for dinner, Nancy? There's a steak, and creamed potatoes, and some hothouse tomatoes that come by express this

mornin' from 'a sincere admirer' in Fort Collins, whoever he is. Would you like apple pie, or a good baked custard? Miss Columbine says to order anything you want. My stars! Your bed's a perfect sight. I hope this praise you're gettin' won't turn your head."

Nancy smiled and replied: "I'll choose the pie, Aurora. And could we open a can of your wonderful string beans?"

"Sure we could. Why don't you ask right out to stay to dinner, Mark Adam? You might as well as sit there lookin' hungry."

Mark shook his head, endeavoring to appear grieved.

"You wrong me, Aurora. I'm headed for Colorado Springs soon as my elder brother arrives from home in the new car. We're to swap vehicles; and I dare say Matt would appreciate that grudging invitation, though if you ask me, he's already enjoyed more than his share of our nation's heroine."

"I think he's gettin' awful sweet on her," observed the woman, so soberly that Nance suppressed a smile.

"So'm I," said Mark, and grinned at Nancy.

Aurora moved forward, her brow furrowed with worry.

"I hope to goodness it won't make no trouble in the family, Mark Adam. 'Twould break your mother's heart if anything was to come between you boys. What are you laughin' about now, Nancy Nelson? It's no laughin' matter for two brothers to get sweet on the same girl. There was the Elton brothers up to Cripple Creek. They both fell in love with Sarah Peters and—Yes, Miss Columbine" (as a warning sounded from below), "I know you told me not to talk Nancy to death. I'm comin' now."

"And she leaves us," Mark said tragically as Aurora fled, "in complete ignorance as to the fate of those unfortunate Eltons! I'll look in on Jack this afternoon, Nancy. Want me to take him some of this accumulation?"

"I do if you want to forget to bring them back. I'm saving every one of these absurdities to show my grandchildren. Jack's seen the papers, I suppose."

Mark nodded.

"He says he feels like Lindbergh! The last of those kids goes home to-day, Nance. It's wonderful how well they all came through."

"Isn't it? I was so awfully afraid for some of them. It makes me shudder just to remember how they suffered. Is that Matt honking so cheerily below the window? Hand me that compact on the bureau, Mark. I expect I look a sight."

The young man threw her a reproachful glance as he obeyed.

"I note the fact that you used no powder or lipstick on my account, Miss Aladdin. Say! Aunt Em sent in a big donation for the library. I left the books with Mary Taylor, but she suggested you might like to look 'em over here."

"I would. I can hardly wait to get back to the library. Juanita says—"

"All ready, feller," called Matthew from below.

Man, they're good!

Christie's Premium Soda Crackers, made crisp and fresh in Western Canada for Western Canadians.

Christie's Biscuits

"There's a Christie Biscuit for every taste"

Mark went to the stairway and looked down.

"Why don't you join us, brother? Nancy's been beautifying herself just for your benefit. She looks like the Queen of Sheba or Greta Garbo, or some one."

Matthew obeyed, saying as he paused on the threshold: "I was only thinking that two callers might upset the invalid. How you feeling Nance?"

"Great! And don't call me an invalid. There's nothing the matter except that my feet feel sort of—well, sort of brittle!"

"Mark Adam," called Miss Columbine, "you come right down. You've been there half an hour. It's Matt's turn now."

"Coming," called Mark; and then to Nancy: "I'll drop in later and let you know if your brother's hat still fits his head, my dear. So long."

As Mark departed, Matt drew a chair nearer the bed.

"You appear to be submerged in letters, telegrams and the daily press," he told her, smiling. "How does it make you feel, Nance?"

Her eyes lighted with something near amusement.

"It may sound ungrateful, but most of this business makes me want to laugh. It's awfully nice for every one to say such things about us; but I know, and you know too, Matt, that anybody else would have done exactly what Jack and I did. It just happened to be us—that's all."

"I'm not so sure," said Matthew gravely. "I—think you're wonderful, Nance."

(To Be Continued)

All Have Same Idea

Seven Sons In One Family Serve On Police Force

A family of seven sons, and all in the police force, is the record set up by Mr. and Mrs. M. Duncan, of Post-say, Scotland. Duncan senior, also served as a policeman for a number of years, but left the force, and took up farming. After leaving school in turn the seven sons tried to farm. Six of them are six feet and over in height, while the youngest, who is only 18, is five feet 11 inches.

Little Helps For This Week

A bruised reed shall He not break. Isaiah 42:3.

All my life I still have found And I'll forget it never; Every sorrow hath its bound, No cross endures forever. All things else but have their day, God's love only lasts for aye.

We have never had more than we can bear. The present hour we are always able to endure. As our day so is our strength. If the trials of many years were gathered into one they would overwhelm us, therefore in pity for our little strength He sends first one and then another, and then removes both before He lays on a third heavier perhaps than either, but all is so wisely measured to our strength that the bruised reed is never broken. We do not look enough at our trials in this successive and continuous view. Each one is sent to us to teach us something, and altogether they have a lesson which is beyond the power of any to teach alone.

Pilgrims Visit Battlefields

A quarter of a million pilgrims visit the Great War battlefields of France every year, and of these six per cent are German, twice as many as British. No fewer than 14,700 Germans visited Verdun alone during 1934.

KIDNEY TROUBLE

will result in headaches, backaches, broken sleep, and a tired, listless feeling during the day. At the first indication of any of these symptoms, take Gin Pills for prompt, safe relief. You'll feel better, look better and sleep sounder.

Remember the name

GIN PILLS

Governor General Expert Guide

Lord and Lady Tweedsmuir spent much time on deck as the Canadian Pacific SS. Duchess of Richmond steamed up the St. Lawrence. In the above picture Canada's new Governor-General, who is a distinguished historian as well as a successful writer of romantic adventure stories, pointed out historic landmarks of Canada's Ancient Capital to Lady Tweedsmuir and his son, the Hon. Alastair Buchanan, as the liner neared Quebec.

Pays Official Visit

Mrs. Tilley, of Calgary, Grand Matron of the Alberta Grand Chapter of the Eastern Star paid her official visit to the local chapter last Thursday evening.

There was a good attendance of members and visitors from Carstairs, Olds, Calgary, Edmonton and Jasper.

Mrs. Shaw, member of the Board of General Purposes of the Grand Local and Mrs. Richards, Worthy Matron, of Bow Valley Chapter, Calgary, were among the visitors.

After the meeting supper was served during which music was rendered by Miss Dorothy Ranton, Miss Evelyn Liesemer and Mrs. Bolton.

Turkey Shoot

Despite the cold weather on Armistice Day the turkey shoot at the Butte was very successful.

There was a good number of shooters present and 31 birds were disposed of in the competitions.

Seed Grain Census.

In view of the great amount of grain that was hit by frost this season the Department of Agriculture has started out to get a census of all those who will require seed next season, and also all those who have grain for sale fit for seed.

Councillors of rural municipalities have been furnished with forms to tabulate the information. Information is applicable for wheat, oats and barley, both seed and feed, also hay, greenfeed and straw.

Farmers who will be short of seed or feed and also those having good seed or feed for sale, are requested to get in touch with the councillor of their division, or report direct to their secretaries, Messrs. A. Brusso and A. McNaughton.

Do not delay this information, as the government is anxious to make the necessary provisions for feed and seed as soon as possible.

Burnside Notes.

There will be a wedding dance in Lone Pine Hall this Friday evening for Mr. and Mrs. Bob McCulloch.

Mr. Fred Metz spent Sunday with Mr. and Mrs. Bob King.

Mrs. Leah Doll left Sunday for her home in Kitwanga, B.C. She was accompanied to Edmonton by Mr. and Mrs. Leon Doll and Ray, who returned to their home in Rolla.

Mrs. Bert Pross received word of the death of her father, Mr. Joseph Beamish, at the home of his daughter, Mrs. Venables, in Hamiota, Manitoba, on November 2. Two other sisters, Mrs. Orris Hembling, of Vernon, B.C., and Mrs. Matt Story, of Vancouver, along with two sons, Crandall and Edgar, survive their father. Many in this district will remember the late Mr. Beamish when he visited here on several occasions, and his many friends will be sorry to hear of his death. The remains were shipped to his old home in Hanover, Ontario, for interment.

Evangelina Booth, 60-year-old commander-in-chief of the Salvation Army, told the "story of the Army" to the Men and Women's Canadian Club at the Royal York Hotel, Toronto, recently. "I was born in the Salvation Army," she said, "but it has never become a common thing to me. It has always been a miracle." A capacity audience gave her an ovation.

Keen outdoor man, enthusiastic member and past president of the Trail Riders of the Canadian Rockies and a leading stalwart in the ranks of the Trail Hikers, J. M. Wardle, chief engineer, National Parks of Canada, has won well-deserved promotion to the post of deputy minister of the Department of the Interior, Ottawa.

Premier Dwyer, of New Brunswick, was the chief speaker recently when the City of Saint John played host at a dinner in the Admiral Beatty Hotel to New Brunswick's guides at their two-day 37th annual convention. Heavy fall guiding affected attendance, but a good membership under the chairmanship of William T. Griffin, of Boiestown, president of the Association, enjoyed a successful gathering.

LOCAL & GENERAL

Rev. J. R. Geeson was an Edmonton visitor this week.

For Best Values in Sweaters and Underwear go to T. E. Scott

Murray Kendrick, of the Dominion Bank, Calgary, spent the weekend at his home here.

Mr. and Mrs. Ward Keith, of Sylvan Lake, visited with friends and relatives here over the holiday.

Misses Aleda and Dorothy Hugel spent the holidays with their parents here.

Mrs. Phillips, of San Francisco, is visiting her daughter, Mrs. Henry Goehring and family.

We Have Boys Skating Shoes, with skates attached, from \$3.00 up — T. E. Scott

Mr. Frank Raymond of the Royal Bank spent the holidays with his parents at Lacombe

Mr. H. Baines, accountant at the Royal Bank has been transferred to the inspection department.

Messrs. Elmer and Art Evans came up from Calgary to spend the holiday week-end with their parents, Dr. and Mrs. Evans

Harold Hardy, of Olds, visited at his home here and was renewing acquaintances around town over the holiday weekend.

Mrs. Shaw, of Jasper; Mrs. Johnston and Mrs. West, of Edmonton, were weekend guests with Mrs. J. A. McGhee.

For Friday and Saturday Only—We are giving a good hockey stick with every pair of boys skating shoes sold.—T. E. Scott

Mr. Pete Miquelon attended the 21st anniversary reunion of the 31st Battalion held at Calgary on Saturday.

Dr. H. C. Liesemer moved into the Sharp residence on Wednesday, having purchased the property. Mr. E. Buhr is moving into the residence vacated by Dr. Liesemer.

For All Lines of Winter Footwear—Try T. E. Scott

A number of the members of the local chapter of the Eastern Star attended the Innisfail chapter Friday evening, when the Grand Matron made her official visit to that chapter.

A large number of friends gathered at the depot Tuesday noon to bid farewell to Miss Bessie Plant, who left on the first stage of her journey to West Africa, where she will engage in missionary work.

A most profitable meeting was held Tuesday evening at the home of Miss Edna Thaler, when the girls met in a goodly number. Miss Bessie Plant gave a very interesting talk on Social Hygiene. A social hour was enjoyed and the meeting closed with a delicious lunch served by the hostess.

SPECIAL CHRISTMAS OFFER—Two 7x9 Photos mounted, and One 7x9 Colored Photo mounted, for \$3.00. With each \$5.00 worth of photos we will give one enlargement; and with each \$10.00 worth of photos, one enlargement colored. Family group a specialty. Xmas cards from our own negatives—J. SCRUTTON PHOTOGRAPHER

Things To Remember

A. MELVILLE ANDERSON, optometrist and sight specialist, will make his regular visit to the Rosebud Hotel on Monday, November 18. Eyes examined and glasses fitted.

Owing to the weather the Westcott W.I. bazaar and concert has been postponed until Friday, Nov. 29th. Fancywork, sewing and other articles will be auctioned. A good program. Lunch will be served. Adults 25c., children under 15 free

Don't forget the I.O.D.E. Novelty Dance in the Opera House on Friday, November 29. Prizes.

Wanted—Small or Medium sized Cream Separator. Must be in good shape and cheap for cash. Apply Pioneer Office.
